

# MC1.25KW power amplifier

- Our most powerful single chassis monoblock amplifier.
- Delivers 1,200 Watts via our Autoformer™ into a 2, 4 or 8 Ohm speaker with a nearly imperceptible total harmonic distortion of 0.005%.
- Updated yet unmistakable McIntosh industrial design that fits right in with current McIntosh products or those made decades ago.
- A 50% increase in filter capacity from previous generation improves the performance of low end frequencies and increases dynamic headroom.
- Other updates include an updated power transformer, heavier gauge internal wiring, upgraded circuit components, addition of our power management system, and a repositioned AC receptacle for easier use of power cords.
- Full of numerous McIntosh technologies including Power Guard®, Sentry Monitor™, Quad Balanced design, McIntosh Monogrammed Heatsinks™, patented Solid Cinch™ speaker binding posts and Power Control.
- Signature black glass front panel features new direct LED backlighting for improved appearance and color accuracy.
- Sits atop a beautiful polished stainless steel chassis and is completed with a fast responding 11" (27.9 cm) blue Watt meter, control knobs, illuminated logo and aluminum end caps with handles.
